## Summary

Tayoko is a university student with a stomach capacity larger than any normal human being, who works part-time in a cabaret club in order to support her enormous appetite. It is there that she inadvertently meets the mysterious vetennanan, Shishio, and falls in love. However, being a natural gigolo who is kind to everyone is his true personality. Tayoko heads out to Meloike Island for a training camp seminar, and Shishio chases after her. After seeing her earnest concern for him, the twisted King of Philanthropy decides to date Tayoko once and for all. Then, Tayoko and the lion king advance towards sex...
